

Regenica® Repair Complex + Microneedling

1	Apply topical anesthetic to treatment area for at least 30 minutes
2	Thoroughly cleanse face and wipe with alcohol
3	Apply generous layer of Regenica® Repair Complex to entire treatment area
4	Apply needling device to face adjusting needle depth according to location, skin quality, and treatment objective
5	Upon completion of this first pass apply another generous layer of Regenica® Repair Complex to entire face
6	Repeat the rolling process similarly in a vertical direction
7	Upon completion, apply a final layer of Regenica® Repair Complex to treated areas

Post Treatment Instructions for patients:

- a. Use only gentle cleansers for next few days
- b. Apply **Regenica® Repair Complex** to face in the am and pm for 5 days following treatment
- c. Apply additional gentle moisturizer as needed for 5 days
- d. Avoid Retinols, AHA, and Tretinoin for 5 days following treatment
- e. Avoid direct sun exposure for at least 2 weeks following treatment
- f. Do not use sunscreen for first 24 hours following treatment. After that apply sunscreen diligently to treated area
